

HONEYWELL PROCESS SOLUTIONS OEM PROGRAM

Driving business collaboration and success

Honeywell

CREATING VALUE TOGETHER

Honeywell Process Solutions program for Original Equipment Manufacturers (OEMs) helps you improve your business bottom line. Using a structured, long-term engagement model to deliver unique cost and sustainability benefits, the OEM program ensures that you always have access to Honeywell's end-to-end technology portfolio and a broad range of industry applications.

Accelerate your time-to-market with Honeywell toolkits. Benefit from our strong technical expertise, execution capabilities, and structured business ecosystem. Cut costs, boost your performance and reduce your maintenance overheads.

The program provides you with a single platform from which you can efficiently maintain and support your entire infrastructure and access additional technical skills and capabilities. In addition, as a partner OEM you can leverage Honeywell's full portfolio of process automation solutions, from advanced software solutions to application-specific offerings and secure connected IIOT solutions.

PROGRAM COMPONENTS

Benefit from Honeywell's engineering and project management expertise wherever you do business globally.

Take advantage of the Honeywell OEM Program as a partner OEM. Meet short and long-term business objectives by supporting your product or service offerings throughout their lifecycles, sharpening technical competencies, enabling growth into new markets, and generating new business opportunities.

EXCLUSIVE ACCESS TO SIX PROGRAM COMPONENTS

BUSINESS COLLABORATION

A structured engagement model that aligns business goals annually to create a winning market position. Enable seamless business collaboration to reduce lifecycle cost and complexity through our engagement model and business ecosystem.

Benefits

Special discounts, incentives, exclusive previews of new products and access to premium Honeywell events.

OEM TOOLKITS

Designed for OEM needs, standardized engineering toolkits include drawings, documents and applications, plus evaluation and demo hardware and software.

Benefits

Accelerated time-to-market and improved operations efficiency through the use of Honeywell toolkits, evaluation kits, development software and demo kits at special prices.

TECHNICAL CONSULTATION

Take advantage of Honeywell product and domain expertise for custom designs, proof of concept for new solutions, sales pursuits and product training.

Benefits

Reduced risk and engineering costs related to custom designs and the adoption of new products. Develop timely, differentiated solutions for sales activities.

CONVERSION SERVICES

Honeywell's engineering and project management team will develop an equivalent or better solution when an OEM switches to Honeywell products or technologies.

Benefits

Risk-free switch to Honeywell. Peace of mind through extensive functionality and stability tests.

CO-MARKETING

Partner OEMs can use the Honeywell brand in conjunction with promotions, or brand Honeywell products with their own name. Honeywell will co-invest in joint marketing activities and events. Support Honeywell product registration in key accounts.

Benefits

Partner OEMs can create a differentiated offerings and drive business growth with the support of Honeywell branding, awareness building and demand generation efforts.

SERVICE AND SUPPORT

Leverage Honeywell's global presence, service contracts and extended warranties, global technical assistance centers and outcome-based services.

Benefits

Ensure end customer satisfaction and high equipment availability with Honeywell engineering expertise and global service and support infrastructure

HONEYWELL OEM PROGRAM LEVELS

Honeywell OEM Program has two tiers: Gold and Platinum.

- A Gold OEM is a company that adopts two or more Honeywell product lines as part of their offering and collaborates on technical and commercial activities.
- A Platinum OEM is a company that standardizes on two or more Honeywell product lines and collaborates on technical, commercial and marketing activities.
